

SILICONE EMULSIONS

Need a stress free moment?

Of course you do! Efficiently applying a silicone emulsion in heatset applications is a vital step in the whole offset process. Your print job is almost ready, and now you have to get it through the folder scratch free to obtain your completely finished product.

Fujifilm has developed a new technology in silicone emulsions offering all the benefits you are looking for: immediate wetting of your print, excellent rub resistance, no ink build up on the turn bars, excellent gloss and no static charge in the stack. On top of all these, you also realise an important cost saving. Fujifilm's new silicone series offer the optimum protection, even for matt coated paper.

**Discover the difference Fujifilm can make to your print flow.
Find out more about our new silicone emulsions today!**

▶ Professional results demand professional tools

Today's printers are under constant pressure to **improve print quality**, increase productivity and boost **environmental performance**. Which is why Fujifilm develops **intelligent and integrated solutions** to meet these challenges across every segment of the Graphic System industry. Fujifilm's **unparalleled experience** has resulted in a complete range of pressroom chemicals that help you take control of the entire printing process from plate to page; from pre-press to finishing. For professional results.

Fujifilm Pressroom Solutions offer:

- ▶ Increased profitability
- ▶ Optimised productivity
- ▶ Reduced environmental footprint

TYPE	ACTIVE CONTENT (%)	DOSAGE (%)	FEATURES
WITHOUT WAX			
SILSTAR F1000 CT	20	6 - 9	Optimum wetting
SILSTAR F2000 CT	40	4 - 7	Optimum wetting
SILSTAR F3000 CT	60	2 - 5	Optimum wetting
WITH WAX			
SILSTAR F1000 CXT	20	6 - 9	Optimum wetting and premium rub resistance
SILSTAR F2000 CXT	40	4 - 7	Optimum wetting and premium rub resistance
SILSTAR F3000 CXT	60	2 - 5	Optimum wetting and premium rub resistance
